

The new AquaThermoJet.

The new AquaThermoJet.

SOOTHING AND EFFICIENT TREATMENTS.

32 rotating water jet nozzles are integrated ergonomically in 7 zones.

3 standard and 9 individual programs can be combined with 5 different levels of intensity. The user has 60 possible ways to select his own optimal program.

It is quite simple: choose your program and enjoy.

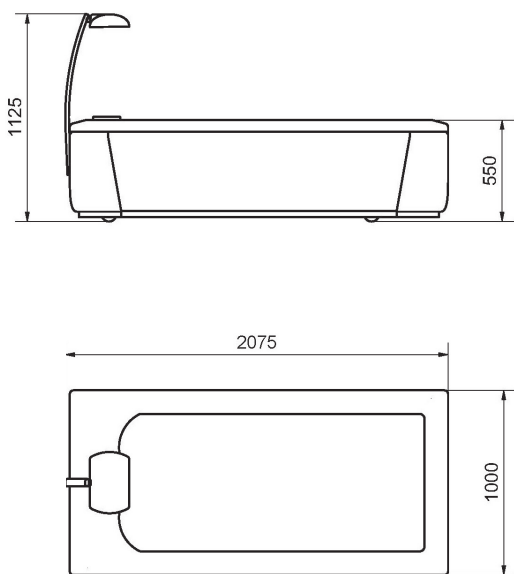

EFFECTS ON BODY, SPIRIT AND SOUL.

- › Relief of muscle tensions.
- › Improvement of blood circulation and metabolism.
- › Tightening of the tissue.
- › Stimulation of the lymphatic system.
- › Stress reduction.
- › Increase of the personal well-being.

Water massage for the well-being.

Back pain and states of fatigue due to a lack of physical activity and too much strain often lead to a reduced quality of life. The 32 rotating water jet nozzles of the new AquaThermoJet are integrated ergonomically in 7 zones and relax the body from the feet up to the shoulders. The massage is performed in circular movements in direction of the heart, like during the treatment of a physiotherapist. The soft and comfortable film of the surface and the soothing warm water jets relax the muscles and increase the personal feeling of well-being.

The new AquaThermoJet offers an attractive, reasonable and inexpensive alternative to a manual massage at any time, whenever you want.

Dimensions of the new AquaThermoJet

DESIGN AND LIGHT.

The lateral cladding and the translucent surface are illuminated in all the colours of the rainbow and bathe the room in a pleasant light. The colours change automatically. A particular colour can be selected as well. The cladding is available in white or in black.

The new AquaThermoJet is also optically a real highlight!

POSSIBLE WAYS OF USE.

The new AquaThermoJet is excellently suitable for the use in wellness areas, beauty and fitness-centers, where it can be used on a self-serving basis with a coin-operated machine. The new AquaThermoJet can also be used for physical relaxation in doctors' practices as well as in companies with health management.

CHARACTERISTICS AND FACTS.

PROFITABILITY - ECONOMY.

The new AquaThermoJet is easy to be operated and can be used without any external help or trained personnel.

FLEXIBLE & SAFE & COMFORTABLE.

The smart technology, patented, allows the user to leave the AquaThermoJet at any time during the treatment without affecting the functioning of the machine. The low height (chair height) makes it easy to get on and off the AquaThermoJet. Thanks to a special mechanism the film of the surface hardly sinks into the water when used. An integrated padded head rest guarantees ultimate comfort. The special film of the surface is extremely hygienic and allows a perfect and relaxed position.

COOLING UNIT.

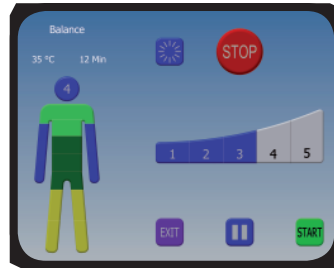

For an intensive and permanent use the new AquaThermoJet can be connected with a cooling unit that is included in the delivery.

The user can select his program without help while resting on the surface. The menu and the use of the new AquaThermoJet are easy to understand.

The control panel can be swiveled by 180° and therefore be easily operated by the personnel in an upright and back-saving position.

The touch screen of the new AquaThermoJet is also easy to understand. All the programs and treatments are displayed in a very clear and comprehensive way.

The new AquaThermoJet	
Outer dimensions: l x w x h	2075 mm x 1000 mm x 1125 mm
