

Hydroxeur[®] 200. A top-class custom-made bathtub.

This picture includes chargeable options.

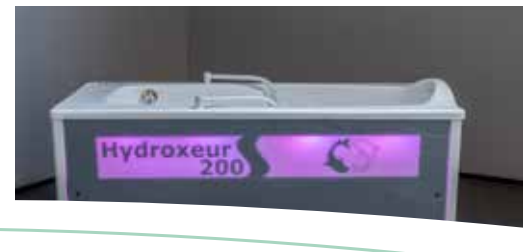

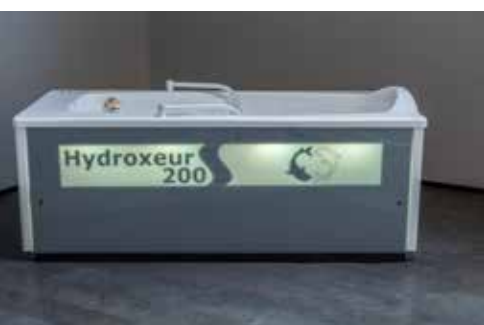

Hydroxeur® 200.

The Hydroxeur® 200 offers an unique bathing experience and represents a new and attractive offer for the demanding clientele in hotels, spas, saunas and beauty centers.

Watertight touch screen, rotatable bath filler made of stainless steel and hand shower for cleaning the bathtub.

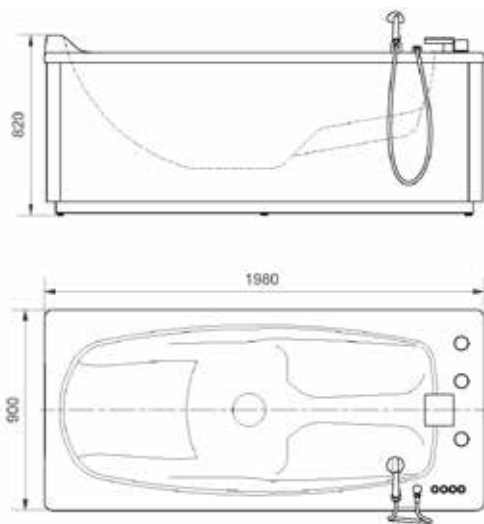

Hydrotherapy for the Medical Spa Sector, Thermal Baths and Thalasso Therapy Centers.

The Hydroxeur® 200 offers all the advantages of a luxury bathtub in an aesthetic design equipped with a modern and reliable technology. The bathtub with its variety of equipment options allows to experience vitalizing massages with up to 290 water and air jets arranged ergonomically in 5 anatomic zones and can also offer an air jet bath with 60 jets (optional) in a separate pipe system. Flicker-free LED spotlights let the water shine in all colours of the rainbow.

An easy command of the bathtub allow push buttons, a separate or integrated watertight touch screen or a tablett with bluetooth (optional).

The individual design possibilities guarantee a perfect integration in your spa and recreation area.

Dimensions Hydroxeur® 200.
